

DOTMobile PortableBox

Rechargeable battery powered, handheld, global GPS Tracker with ManDown and SOS alerts.

MIAMI – (January 16, 2017) – DOTMobile PortableBox delivers real peace of mind to Owner and Rental Business even when main power is not available.

With DOTMobile PortableBox it's finally possible to secure and control single or unlimited fleet of canoes, paddle boards, dinghies, kayaks and by allowing users and hikers to notify their positions and ask for help with SOS button, ManDown and Geofence alerts across the globe.

No wiring required, the PortableBox can be carried into the pocket, placed in a storage bin or simply fix it to the asset to have it under control on the multi-map (Navionics, Google, Bing, OpenStreet) Web Portal and WebApp.

DOTMobile PortableBox is available either with top flexible PAYperUSE for on demand use, daily, weekly or seasonal business or cost-effective yearly PLAN for continuative use so Owners and Rental Business can choose the options that best fits with their time related needs.

DOTMobile PortableBox is part of DOTMobile Watercraft Tracking and can be combined with DOTMobile BlackBox for JetSki, Boats or Yachts to finally have single or unlimited fleet of watercraft and people under control.
