

Real peace of mind and improved operations with multi-device offer to control any type of watercraft and people

Owners and Charter, Rental business can finally locate, track across the globe on Navionics map, alert and immobilize by remote single or unlimited fleet of canoes, kayaks, jetskis, ribs, boats, yachts, finally outboard engines and allow users and hikers to notify their positions and ask for help.

Unique options, choose the best offer for your time related tracking service needs.

PLAN

Cost-effective for continuative use

PLAN TW (Timeless Warranty), no initial device investment with a higher yearly cost compared to standard Plan. The device is sold free of charge with Timeless Warranty for the duration of the Plan.

PAYperUSE

Top flexible for on demand use or seasonal business

It works with Credits which grants up to one day of service for one device. Master the use of Credits by sharing them with the devices on a daily, weekly use or seasonal business based on the occupancy rate. Start using the Credits when service is needed, right on the spot or when season begins, on a single device or select ones. Stop the service when it's not required or end of season.

Top performance **GPS tracking service**, multiple device offer to address any watercraft or people application, with both cost-effective yearly plan or top flexible payperuse. Choose what is best for your time related needs.
